For many tributes it's all about creating the hype and illusion of seeing your favourite artist.
Virtual Journey prefers to focus on what's important.

The MUSIC!!!!

No lookalikes, no costumes....

Experience the music the way it was meant to be heard.

Virtual Journey is made up of five extremely talented musicians who have many years of experience playing live throughout Canada and the US.

When you combine this culmination of experience and expertise then layer the soaring vocals of Dave Fergusson, the explosive guitar playing of Paul Mulley, the dynamic piano and keyboard playing of Larry Swierz, and the rock solid rhythm section of Al Morely (Bass) and Sam Albidone (Drums), the result is the most professional replication of Journey's music to ever take the stage.

Virtual Journey covers the full range of Journey's musical career from the early days with Steve Perry right through the arena rock era to their recent resurgence on the scene with their new frontman Arnel Pineda.

Covering all of the multi-platinum Journey hits that generations of fans have grown to love:
